

# Reporting Solutions for STRATIX

iTECH's reporting solutions enable you to extract data into personalized reports as per your exact needs. This can be accomplished using one of the two methods, STRATIX Integrated or STRATIX Independent reporting solution.

## STRATIX Integrated Reporting<sup>1</sup>

STRATIX Integrated solution uses STRATIX's infrastructure and technology, allowing for superior user experience and increased return on your investment.

### Highlights

- Seamless integration with STRATIX menu and Print-Optimizer Server
- Ability to view, print, email, fax reports from STRATIX Document Manager
- Schedule reports using STRATIX Scheduler
- Ability to use non-STRATIX database(s)

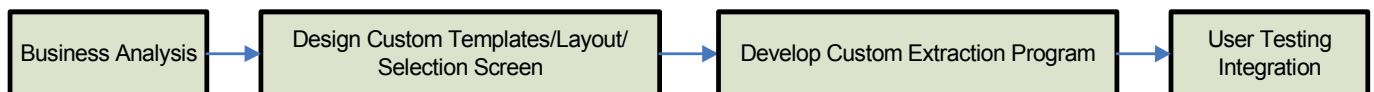

## STRATIX Independent Reporting<sup>2</sup>

STRATIX Independent solution is designed to use any third-party technology like Crystal Reports, Actuate, COGNOS etc. to create and distribute custom reports

### Highlights

- Support for dynamic graphics (charts and figures)
- Multiple formats (HTML, PDF, XML)

## Methodology

## Benefits

- No additional training required for End User or System Administrator
- No new hardware or software needed
- Ability to publish and share reports on internet
- Plug n' Play implementation through STRATIX configuration menu
- Guaranteed compatibility with future STRATIX versions
- 24 hours support

1 : STRATIX Integrated Reporting Interface license required

2 : Product Database User license required
